EDUCATION

I've pursued **B.E. in Information Technology** (2022 - 2026) from *Vivekanand Education Society's Institute of Technology (VESIT), Mumbai*

- **B.E. (Information Technology)**, VESIT, Chembur | CGPA: **8.48** - 2026
- **12th (HSC)**, Lourdes Junior College, Kalyan | Percentage: **79.17 %** - 2022
- **10th (SSC)**, St. Thomas English School, Kalyan | Percentage: **91.4 %** - 2020

EXPERIENCE

- Python Developer Intern** - Jun 2024
ShadowFox — Virtual Internship | 1 month
 - Developed a GUI-based Hangman game using Python and Tkinter, with score tracking, real-time feedback, and adaptive difficulty levels.
 - Tested the application with 10 users and incorporated feedback to enhance usability, functionality, and overall user experience.

TECHNICAL SKILLS AND CERTIFICATIONS

Programming Languages | Python, SQL, JavaScript, C++, HTML/CSS
AI and Machine Learning | PyTorch, Model Training and Evaluation, Feature Engineering
Generative AI | LangChain, Hugging Face, Ollama, RAG, Prompt Engineering
Web and App Development | React.js, Node.js, REST APIs, MongoDB
Cloud and DevOps | AWS Cloud Practitioner, Git, Linux

CERTIFICATIONS -

- Artificial Intelligence** - Apr 2024
DeepLearning.AI via **Coursera**
| Comprehensive overview of AI, machine learning, deep learning, ethics, societal impact and industry use cases.
- Machine Learning** - Jul 2024
Stanford University and DeepLearning.AI via **Coursera**
| 3-course specialization, covering supervised, unsupervised, reinforcement learning, advanced algorithms and recommender systems.
- AWS Certified Cloud Practitioner** - Jun 2025
Stephane Maarek via **Udemy**
| Covered core AWS services, global infrastructure, security, pricing models, and cloud architecture; passed the exam of AWS CLF-C02.
- Deep Learning - Neural Networks** - Jul 2025
DeepLearning.AI via **Coursera**
| Covered artificial neural networks, performance tuning, supervised learning, calculus, linear algebra, and AI with Python programming.

PROJECTS

- Lapis Whale - Continual Learning Framework for Transformers | Final Year Research Project** - Nov 2025
| PyTorch, Vision Transformers (ViT), CUDA, Deep Learning, Continual Learning
Python-based modular continual learning framework for Transformer architectures designed to mitigate catastrophic forgetting using a novel Selective Replay Utilization Mechanism (SERUM).
Impact: Designed a class-balanced memory buffer and composite replay loss, achieving 77.66% accuracy and 10.74% forgetting on sequential CIFAR-100 tasks while matching near-Naive Replay performance with only a 2% memory footprint.
- Vakel - ML-based Image Authenticity Checker | Third Year Project** - Apr 2025
| Flask, Python, TensorFlow, CapsNet
Flask-based website, integrating a deep learning model with Capsule Networks (CapsNet) to classify images as real, AI-generated or deepfake.
Impact: Developed a CapsNet-based image authenticity classifier to identify real, AI-generated, and deepfake images with 75%+ accuracy on a 4,500-image dataset.
- Millets - Smart Multi-purpose Guide and Market Tool for Farmers | Agri-Tech Hackathon Project** - Mar 2025
| React, Node.js, APIs
React-based platform for farmers' real-time crop advice, weather forecasts, soil health data, market pricing, farming calendar and multilingual support.
Impact: Built a web platform integrating APIs for crop advice, weather forecasts, soil health data, and market pricing, enabling farmers to access data-driven insights and planning tools in one place.

ACHIEVEMENTS: Hackathons and Competitions

- FINALIST - Colohacks 2026:** - Mar 2026
- Ranked among the top 20 out of 200+ teams in a 24-hour intercollegiate hackathon at Don Bosco Institute of Technology.
- FINALIST - Agri-Tech Hackathon 2025:** - Mar 2025
- Ranked among the top 10 out of 300+ teams in a 24-hour national hackathon at KJ Somaiya College of Engineering.
- FINALIST - Invictus 2024:** - Jan 2024
- Placed among the top 6 out of 80+ teams in a 24-hour intra-college hackathon at VESIT.

LEADERSHIP: Key Roles and Events

- Head Placement Coordinator** | IT Department, VESIT - 2025 to 2026
- Led placement coordination for 800+ students, facilitating 35+ campus recruitment drives, liaising between recruiters and students.
- Class Representative** | IT Division, VESIT - 2022 to 2026
- Elected for 4 consecutive years, to represent 60+ peers in academic and administrative forums.
